

Identifying the Wider Community. Science and Engineering of the Natural Environment

Wednesday 17th April 2013 | 14:00 - 18:00
National Oceanography Centre Southampton

An afternoon to engage the wider Southampton community of researchers furthering our understanding of the Natural Environment and its application to Society, Policy, and Business.

- Plans for a Southampton-led NERC Doctoral Training Partnership
- Multi-Disciplinary Science and the Natural Environment
- Transferring Skills from Mathematics, Physical and Life Sciences, and Engineering to Environmental Research
- Posters, Networking, and Drinks Reception
