

# “The Musical Brain”

BNA and Sainsbury Wellcome Centre at UCL Christmas Symposium 2013

**Monday 16th December**

**Darwin Lecture Theatre, UCL, London. 12:00 - 18:30**

Whether you attend a solemn religious ceremony or an alcohol-fuelled karaoke, Christmas is a time for music. From sublime carols to seasonal pop songs, Christmas provides the perfect opportunity to unleash our inner Diva. Even if Christmas is irrelevant to you, the pleasure of music is universal, an essential part of every human culture. Join the BNA at its annual Christmas Symposium to explore the neuroscience of music, from the mechanics of sound perception all the way through to the therapeutic uses of music, in an appreciation of The Musical Brain.

## **Speakers:**

**Dr Katie Overy** (University of Edinburgh)

**Dr Maria Chait** (UCL)

**Dr Lauren Stewart** (Goldsmiths, University of London)

**Peter Todd** (Alzheimer's Society)

**Dr Alan Watson** (Cardiff University)

**Dr Jason Warren** (UCL)

Also featuring the presentation ceremony of the following BNA awards;  
BNA award for outstanding contribution to neuroscience; BNA public contribution to neuroscience  
BNA postgraduate award; BNA undergraduate award

## **Cost:**

FREE for BNA members. £75/ £40 for non-members which includes free BNA membership for one year.
