PART OF THE
**RUSSELL
GROUP**

Your university experience is about more than your course, it's about the next chapter of your life – your new world. At Southampton we want to further your passion to learn and encourage your desire to explore, in a community that embodies those values.

An institution in the top one per cent of global universities* and a founding member of the Russell Group of research-intensive UK universities, you can expect to be inspired and challenged.

Here, you will be supported in your studies and together we can prepare you to make your mark on the world.

Whether you aim to become a GP, hospital physician, surgeon, or follow another route, we give you the best possible preparation for your future career, alongside a fantastic student experience in a vibrant, diverse environment.

As a thriving, ambitious multidisciplinary Faculty, we are national leaders in medical education. Holders of an International ASPIRE Award of Excellence in Student Engagement, we have an outstanding reputation for our combined research and teaching expertise.

A GLOBAL UNIVERSITY

Part of the Worldwide Universities Network, a collaboration of knowledge from around the world

Southampton is your gateway to the world. Explore new cultures through study abroad opportunities and international student societies, get advice from graduates across the globe and make friends with people from our lively and diverse community.

- Meet students from over 135 countries
- Our inspiring academics make a difference on every continent
- Our business, government and non-government organisation partners span the globe
- We are part of the Worldwide Universities Network, a collaboration of knowledge made up of 19 research-intensive universities
- Our 200,000 graduates are part of a network of professionals that covers 180 countries

We are an institution in the
TOP 1%
of global universities*

We have strong international partnerships that include the University of Auckland, University of California San Diego and the Chinese University of Hong Kong, as well as a University of Southampton Campus in Malaysia.

STUDYING ABROAD:

We have over 400 links with 233 partners in 54 countries around the world

@unisouthampton
@UoS_Medicine

Follow us for the latest news, research and events at the University

1 Meeting world health challenges

We collaborate with the World Health Organization (WHO) to develop and evaluate new ways of meeting the major health challenges facing the world.

2 European Bachelor of Medicine

The European Bachelor of Medicine programme is a joint venture with a German healthcare provider. On this programme students study in Southampton before transferring to Germany.

3 Tackling Everest

Professor Mike Grocott performs research on Mount Everest Base Camp to better understand oxygen deficiency in the human body.

4 Improving health in China

Southampton researchers are helping a United Nations' Population Fund programme to improve the reproductive health of millions of young people in China.

5 Study abroad

Our students undertake elective placements across the world from America to Australia, Africa to SE Asia. Medical student Jessica Tinsley undertook her elective placement within an Acute Medical Unit in Sydney, Australia.

WORKING TOWARDS YOUR FUTURE

Southampton offers a wide range of placements. You will gain experience of all types of healthcare settings from a small District General Hospital to the big General Hospital.

Anh Vu came to Southampton to achieve his ambition of becoming a competent and understanding doctor. He found the location is great, close to London and the course is very practical, as you get to see patients in your first year.

“Although I had already left my native Vietnam to study my A Levels two years previously, it still gives me a chill remembering the first night without my host family cooking me dinner. However, there is a lot of support at Southampton to help you settle in and my initial anxiety was soon replaced by the excitement of the new environment and making new friends.”

Anh Vu has found the last five years to be a very exciting time, filled with wonderful memories. He has participated in various extra-curricular activities and has been President of the Vietnamese Society. Anh Vu feels the opportunity to take part in these activities is an important part of University life. They provide a break in learning, as well as honing your skills in leadership and teamwork. Being President allowed him to both

contribute to events, but also still gave him the time for study.

“Medicine at Southampton can provide you with many opportunities to achieve your dream and offers experiences that will influence your future career. Their research opportunities are plentiful and can give you an upper hand when applying for jobs.”

“Southampton also offers a wide range of placements. You will gain experience of all types of healthcare settings from a small District General Hospital to the big General Hospital. One placement could be in the New Forest with lots of elderly patients, while the next one could be in a less affluent city area.”

The journey through Medicine is a challenging one and Anh Vu says he is proud of himself for successfully navigating his way through the first part. “Although there currently appears to be a lot of uncertainty in the NHS, future students should remember a career in Medicine will always be a rewarding and highly respected one.”

Ngoc Anh Vu Ha
BM5, Year of graduation: 2018

YOUR LEARNING

We offer much more than a traditional learning environment. With access to virtual learning 24-hours a day and the opportunity to develop your own education, Southampton provides a unique learning experience.

All medical students are allocated a Personal Academic Tutor and Senior Tutor on arrival who will help you to settle in and obtain the help and support you need. Academic and administrative staff are also available to assist students with day to day issues.

Facilities

Throughout your training you will have access to a full range of University facilities. These include the well-resourced Centre for Learning Anatomical Sciences and Clinical Skills Centre at Southampton General Hospital. The University has several libraries including the Health Services Library.

Applicants with a disability, condition or health problem

The University of Southampton has been closely involved with The Gateways Disability Project which has seen the General Medical Council joining forces with 11 medical schools to develop guidance on encouraging people with disabilities into medicine and continues to actively support applicants with disabilities who wish to pursue a career in medicine.

The guidance produced provides practical suggestions to help medical schools ensure that disabled students do not face unnecessary barriers to successful medical careers. For further details please visit http://www.gmc-uk.org/education/undergraduate/gateways_guidance.asp

We have a special responsibility to ensure that all students admitted to the BMBS programmes will be eligible for registration by the General Medical Council upon graduation. It is important to us that our students are able to fulfil the rigorous demands of professional fitness to practise.

Students who are made an offer and who indicate on their UCAS form that they have a disability will be referred to the University's Enabling Services as part of the admissions process to ensure that the University is able to offer the appropriate systems of support. Any disability disclosed on your UCAS form will not be used as part of the selection process.

Both your offer and continued registration on the programme will be conditional upon the completion of satisfactory health screening. Health screening is assessed in confidence by staff in the Occupational Health Department at University Hospital Southampton. It is important that applicants disclose all medical/health conditions - if you are unsure whether to include health or medical information on your Occupational Health form please include it.

In line with recent guidance, blood borne virus (BBV) testing will be performed during the initial stages of medical training, prior to undertaking any Exposure Prone Procedures (EPPs). Freedom from infection with BBVs is not an absolute requirement for those wishing to train as doctors, however satisfying additional health clearance, which includes determining their BBV status, is obligatory for those who wish to train in specialties that involve EPPs.

Support for students

The University Student Services Centre provides advice and information for students on issues such as fees and accommodation. Support is also provided for students with specific learning difficulties such as dyslexia, and the University also offers a wide range of support services.

For more information visit the University website: <https://www.southampton.ac.uk/studentsservices/index.page>

OUR PEOPLE

Make Southampton the start of your new world; our community is full of passionate people with the drive to change the world through their research and collaborations with global partners. We can help you develop the skills you need for your future.

- Become part of a research-intensive community where our discoveries are having global impact
- Our world-leading academics will inspire and challenge you throughout your studies
- Our graduate mentors can help you develop your skills
- Feel welcome in your new home among a diverse mix of people and cultures

Karen Morrison
Associate Dean and Professor of Neurology

Karen is Associate Dean for Education and Director of Education, overseeing all the Medicine programmes in the Faculty. She is also Professor of Neurology and a clinical neurologist, specialising in the care of people with motor neurone disease, MND. Her clinical and laboratory research background is in molecular genetic mechanisms in neurodegeneration.

Jahangir Alom
Final year BM6 student, MedSoc President 2016/17

Taking an elective placement in Bangladesh enabled Jahangir to explore comparisons between very different public healthcare systems. It also provided him with the opportunity to develop his leadership skills that will be invaluable in his future career. In addition to his role as MedSoc president in 2016/17, Jahangir is the founder of WAMSoc (Widening Access to Medicine Society).

Diana Eccles
Dean of Faculty of Medicine, Professor of Cancer Genetics

Dean of Medicine, Professor of Cancer Genetics and Head of Cancer Sciences and past director of the University of Southampton Clinical Trials Unit, Diana is also the Chief Investigator for a large national cohort study which has recruited over 3,000 young women with breast cancer and collaborates in international studies to understand the role of inherited genetic mutation in breast cancer risk and prognosis.

Michael Moore
Professor of Primary Healthcare

Michael's research focuses on tackling the over-use of antibiotics to prevent the global problem of bacterial resistance. He is exploring the potential of traditional herbal remedies to limit antibiotic use. He has been on advisory boards for the UK government and the World Health Organization.

Sophie Lewis
BM5 graduate 2016

Sophie has been involved with the development of a 'Teddy bear hospital' which she has taken into schools to help reduce the fear that children may have of going to see the doctor. Being able to see a triple bypass and a birth has cemented Sophie's passion to follow a paediatric career path.

WORLD-CLASS RESEARCH

Cancer immunology

The University of Southampton leads the UK in cancer immunology research. Building on this unrivalled expertise, we are delighted to have just opened the UK's first dedicated Centre for Cancer Immunology.

We are on the cusp of exciting breakthroughs in the race to cure cancer. Our ground breaking immunology research is enabling the body's immune system to recognise and eradicate cancer cells. We are seeing some amazing results in clinical trials, with as many as half of our patients with difficult and terminal cancers, including lung and skin cancer, showing dramatic improvements. In fact, our immunotherapy treatments are proving so powerful they can last a lifetime.

Our new state-of-the-art Centre, situated at University Hospital Southampton and fully funded through philanthropy, is the first of its kind in the UK. The Centre connects world-leading specialists with cutting-edge facilities in a dedicated, interdisciplinary hub. It will not only enable us to increase the intensity and scope of cancer research but will also result in a step change in the number of cancer immunology clinical trials taking place nationally.

"We are starting to see unprecedented success. Our new vaccines and antibodies direct special immune cells against cancers. These 'killer' cells can control and shrink cancer and give long-lasting protection."

Professor Peter Johnson CBE
Professor of Oncology

"I am proud to be spearheading a world-class team in the UK's first centre dedicated to cancer immunology research, at such an exciting time in cancer immunology developments. By attracting the best talent and collaborating across disciplines, we will move faster towards more life-saving cancer treatments."

Professor Tim Elliott
Professor of Experimental Oncology
Director of the Centre for Cancer Immunology

YOUR STUDENT LIFE

Each of our seven campuses have their own distinct feel but all share a sense of community in which your studies and social life can flourish.

Campuses

Highfield Campus caters for most of our academic courses. Incorporating state-of-the-art research and teaching facilities, it boasts new and refurbished student facilities such as the Students' Union and the Jubilee Sports Centre.

Avenue Campus houses a state-of-the-art £3m Archaeology Building and is located on the edge of Southampton Common, a short walk from Highfield.

The University's collaboration with Lloyd's Register represents one of the largest business partnerships with any single university in the world. Our Southampton Boldrewood Innovation Campus is the result of this partnership and is the base for the study of engineering and home to the Southampton Marine and Maritime Institute.

One of the UK's leading teaching hospital trusts, University Hospital Southampton NHS Foundation Trust, is the base for the study of medicine and is also home to the University's dedicated Centre for Cancer Immunology - a UK first.

Medicine@Southampton

Follow us on Instagram to see more pictures of our campuses

02

04

The National Oceanography Centre Southampton is our waterfront campus and is one of the world's leading research centres for the study of Ocean and Earth Sciences.

Winchester School of Art is located 12 miles north of Southampton, in Winchester city centre. The campus provides purpose-designed studios and workshops, an extensive specialist library, Students' Union facilities, a café and a well-stocked art supplies shop.

Our branch campus for engineering in the EduCity development in Iskandar Puteri, Johor, lies at the heart of Malaysia's economic zone. It benefits from innovative world-class facilities for engineering and full access to the learning resources at our UK campuses. It offers undergraduate students the opportunity to study in a safe international environment.

Social life

Independent from the University and run by students for students, the Students' Union offers a wide range of services and opportunities for you to get the most out of your free time.

- Experience Freshers – a full programme of activities to help you settle in
- With more than 300 student groups, you can try everything, from archery, quidditch and performing arts to debating and life drawing
- Join one of our 218 societies including MedSoc and WAMSoc
- Eat at The Bridge, with food from the Union's Michelin-trained chef at student prices
- MedSoc is the student medical society. WAMSoc is the Widening Access to Medicine Society. Both have active committees to support you, from settling in and meeting new people to joining clubs and societies or with your academic work
- Catch a film in the Union's 260-seat cinema, run by student volunteers
- Dance the night away in the Union's venues for large events, such as gigs and student balls
- Become a DJ or director at Surge Radio and SUSUtv
- Try out journalism for the Wessex Scene or The Edge magazines
- Get free, independent and confidential advice from the Advice Centre on matters including student finance, housing and academic issues
- Stock up in our on-campus shop and weekly outdoor market
- Take part in campaigns run by the Students' Union each year including: housing, mental health, enterprise and crowdfunding projects
- Run for one of the positions in the Students' Union's elections and become the voice of students across the University

Sport

- Swim in our six-lane, 25-metre pool or use the varied fitness equipment across our nine gyms: six on campus and three more in the city
- Compete on over 20 grass and synthetic pitches for summer and winter sports
- Your subsidised Sport and Wellbeing membership gives you access to a host of facilities and activities across the city including a dry ski slope, athletics track, water sports and golf
- Join one of the student sport teams or Athletic Union clubs.
- Our recent £1.5m upgrade of sporting facilities means we can cater for everyone from beginners to national competitors

- 01 The Dancing Man Brewery
- 02 Students strolling through historic Winchester
- 03 Students performing at The Talking Heads music venue
- 04 MedSoc 2016
- 05 An evening out at Hollywood Bowl

ACCOMMODATION

**Our welcoming and safe accommodation will be your home away from home.
Stay in one of over 6,500 student rooms, with 24-hour support and advice available.**

All our halls provide excellent facilities and a fantastic environment in which to make new friends and experience student life.

Take advantage of our guaranteed offer* of accommodation, for new first-year undergraduate students.

Live in either self-catered halls of residence with well-equipped communal kitchens, or part-catered accommodation where you enjoy the benefits of breakfast and evening meals throughout the week, plus some other meals at the weekend.

The benefits for you:

- A friendly student community
- Good value and competitive prices that include utility bills, internet, contents insurance and, for halls in Southampton, a unilink bus pass
- Our unilink bus service connects all our Southampton halls sites with our Southampton campuses
- Facilities including common rooms, bars, launderettes, study and social space, barbecue areas and much more

- Special considerations for students with unique course lengths and requirements including a prioritised place in halls for those returning from a full year or semester away
- The Student Life team and the Residences team between them offer 24-hour support and advice on all sites all year round
- 24-hour security and CCTV on all sites

*Our guarantee to you

If you are a registered first-year undergraduate student new to the University, starting a full-time course, with no dependants, you will be guaranteed an offer of halls accommodation as long as you fulfil the full criteria of the guarantee, which includes applying before 1 August.

To uphold the guarantee, in years of exceptional demand we may offer accommodation in a twin shared room at the start of the academic year for a short period of time.

You also have the opportunity to apply for continuing years in halls. Although this cannot be guaranteed, we will always offer students accommodation if we have the availability.

For more information on our guarantee to you, visit www.southampton.ac.uk/accommodation/guarantee

Private rented accommodation

Private rented accommodation is available in Southampton and Winchester as an alternative to halls.

We are a core partner in the Southampton Accreditation Scheme for Student Housing (SASSH), which only advertises properties where the landlord agrees their property complies with SASSH safety and quality standards.

How to apply

Our online application system, guidance and accommodation timeline make the application process as easy as possible.

You can apply for your accommodation when you have received your formal offer of study with your student identification number, the eight-digit number given to you by the University. Find out more and apply at www.southampton.ac.uk/accommodation/apply

JUNE/JULY 2019

Allocation and offer of rooms starts for deferred students and students with unconditional offers, who have applied for accommodation before 31 May 2018

1 AUGUST 2019

New students must have applied for accommodation before this date

MIDDLE OF SEPTEMBER 2019

Allocation of rooms completed

APPLICATION TIMELINE

FEBRUARY/ MARCH 2019

Accommodation application opens and goes live online

MIDDLE OF AUGUST 2019

After A level results, allocation of rooms to all students begins

SHAPE YOUR FUTURE

Our dedicated careers team can help you realise your potential through a wealth of opportunities beyond your core studies.

Fast track your ambitions

- We prepare you for future challenges not yet imagined and jobs not yet thought of
- We are among the top 25 UK universities targeted by the largest number of top 100 graduate recruiters*
- In the most recent Destinations of Leavers from Higher Education (DLHE) statistics, 95 per cent of graduates whose destinations were known were in employment and/or further study
- We are privileged to have four University Service Units offering unrivalled opportunities for personal development through armed forces' leadership and skills training, all of which are fully transferable to civilian careers

Showcase your potential:

- We rank 8th in Clinical Medicine** and 2nd in Public Health and Primary Care**
- We offer practical experience from the very beginning, with patient contact in a variety of clinical settings from the first few weeks
- Your degree will support you in gaining employment in the NHS and the Foundation Programme*** (a two-year training programme for newly qualified doctors)
- If you successfully complete our BM5, BM6 or BM(EU) programmes you will leave with two degrees (BMedSc and BMBS) and will also have had the opportunity to intercalate in our Masters in Medical Science (MMedSc) or taught MSc programmes

Southampton Medicine Graduates are successfully engaged in roles such as:

**Accident and Emergency
Anaesthetics
The Armed Forces
General Practice
Gynaecology
Hospital Medicine specialties
Medical research
Obstetrics
Orthopaedics
Paediatrics
Pathology
Public health
Psychiatry
Radiology
Surgery**

OUR INTERNATIONAL STUDENT COMMUNITY

Our reputation is global and so are our people. Talented students from across the globe find their second home in Southampton, supported by our experienced staff and adding to a vibrant mix of cultures and perspectives in which all our students flourish.

At Southampton our research has global impact, so it is no surprise that our University community is a reflection of that; a cosmopolitan place with a mix of cultures from across the world.

Studying in that environment gives all of our students a truly global perspective and the opportunity to make lifelong international friendships.

We welcome students from over 135 countries including more than 7,500 EU and international students. Our alumni community spans almost 180 countries, underlining how our global network continues to thrive.

Our students have access to countless international opportunities made possible through our global partnerships, including being part of the Worldwide Universities Network.

We strive to ensure that our international students have all the support they need. From ensuring a straightforward entry process, to offering attractive scholarships to eligible applicants, we help settle you in to your new life and all aspects of living in the UK.

International Office

Wherever our prospective students are in the world it is easy to discover how to become a part of the University of Southampton community. Our active International Office staff tour the world attending educational exhibitions and visiting colleges overseas and closer to home.

For those who can't come to see us in person our Virtual Open Days allow prospective students to get a feel for how they could live and study in the multi-cultural campus environment within the diverse community of Southampton.

You will find a quick introduction to the University on our website. You can also view web pages with specific information for students from over 50 countries.

To join us on a virtual open day, visit www.southampton.ac.uk/ugp/virtualopenday

Welcome Programme

In September each year, we arrange a free Welcome Programme for international and EU students, which is designed to help you settle into life in the UK and at the University before your studies begin. It includes talks such as 'A guide to banking in the UK', 'English language and study skills support', 'British culture', and many more.

During the Programme, you will meet other undergraduate students and explore the University and the city, so that you know where to worship, relax and shop. You will also meet current international students who will be able to offer advice.

"The general feel of the University as well as the people and professors made me feel right at home."

Hailey Laurayne
BM5 Year 1

Meet and Greet

We organise a free Meet and Greet service for all new international and EU students in September each year. Our representatives meet you at Heathrow or Gatwick Airport and transport you directly to your accommodation.

You can register for the Welcome Programme and Meet and Greet service from July.

For more details and to view the Meet and Greet video, visit www.southampton.ac.uk/ugp/international/welcome

English language requirements

International students need to demonstrate that they have sufficient knowledge of the English language in order to be able to benefit from all academic activities at the University.

For details about English language requirements for our courses, visit our website.

Pre-sessional programmes

The University offers a wide range of pre-sessional programmes for international students who are planning to come to Southampton to study. These programmes will help you develop the English language skills of you will need to follow a degree course or undertake research at a British university.

For more information, visit www.southampton.ac.uk/ugp/presessional

- 01 BM5 Year 1 Medical Student
- 02 Current international students can give you advice on life in Southampton
- 03 The international market in Portswood, near the University
- 04 View web pages with information specific to your country

Visas

Before you join us, you will need to find out about the UK's immigration procedures well in advance of your arrival in the UK. Our website provides information on student visas, police registration, working in the UK and has links to other useful websites.

For more information, visit www.southampton.ac.uk/ugp/visa

Paying fees

International students can pay for their fees via our international bank transfer platform. This service allows you to pay your fees in the local currency from your home bank account.

YOUR COURSES

Choose Southampton

- 95 per cent of students agreed that the course is intellectually stimulating (NSS, 2017)
- We are the first UK medical school to receive an international ASPIRE Award of Excellence in Student Engagement (2014)
- Clinical experience from year one in a world-class, research-embedded medical programme
- Our integrated approach will help you develop the skills of a doctor, as a scholar, professional and practitioner
- Upon graduation from our BM5, BM6 and BM(EU) programmes you will also be awarded a Bachelor of Medical Sciences degree
- BM5, BM6 and BM(EU) students will have the opportunity to apply to study an integrated classified honours masters (MedSc) degree by taking an additional year of study, or an intercalated MSc in a range of specialties

89%

of students were satisfied or very satisfied with the teaching of their course

National Student Survey 2017

97%

of students agreed their course has provided them with the opportunities to apply what they have learnt

National Student Survey 2017

Research Laboratory in the Centre for Cancer Immunology

The University of Southampton Faculty of Medicine is a thriving and ambitious multidisciplinary community, dedicated to scholarship, discovery and enterprise. We are a national leader in medical education, with an outstanding reputation for our combined expertise in research and teaching.

Career paths

Whether you choose to become a general practitioner, hospital physician, surgeon, or follow another route, our degrees represent the first stage in a rewarding career as a doctor. Each programme provides a comprehensive and balanced curriculum to enable you to develop the knowledge, skills and professional attitudes and behaviours that you will need as a newly qualified doctor.

Enhancing student experience

You will gain practical experience from the very beginning, having contact with patients in a variety of clinical settings and in varying roles from the first few weeks of beginning the programmes.

You will continue to build your clinical expertise through clinical placements, developing your skills in the community and in NHS Trust hospitals across southern England including Jersey. BM(EU) students have placements in Germany.

As a medical student, you will be able to take advantage of opportunities for multi-professional learning, which will be essential as you prepare to join the healthcare teams of the future.

Teaching and assessment

All students are allocated a Personal Academic Tutor as well as access to Senior Tutors where necessary. A range of learning and web-based resources are available to support you in your academic work.

We have several Bachelor of Medicine and Bachelor of Surgery (BMBS) programmes. BM5 is the standard five-year programme. If you already have a degree, our four-year BM4 programme will allow you to draw on your existing knowledge and experience as you begin your training as a doctor. If you are able to meet our eligibility criteria, specifically designed to widen access to medicine, our BM6 six-year programme may be the right degree for you. Information regarding our fourth programme, the BM(EU), can be found at www.medizin-kassel.de. Applications are made through the Kassel School of Medicine.

Upon graduation from our BM5, BM6 and BM(EU) programmes, as well as a Bachelor of Medicine, Bachelor of Surgery (BMBS) degree, you will be awarded a Bachelor of Medical Science (BMedSc) degree. As a successful BM4 graduate you will gain a Bachelor of Medicine, Bachelor of Surgery (BMBS) degree.

Once you have successfully completed your programme, you can register provisionally with the General Medical Council (GMC) and apply for employment in the NHS and the Foundation Programme, a two-year training programme for newly qualified doctors. For information about the Foundation Programme see page 35.

Our BMBS degrees are the equivalent of MBBS and MBChB, and are recognised by the GMC in line with all other medical qualifications from UK medical schools.

Study locations

As a student you will spend the majority of your first two years at our Highfield Campus and Southampton General Hospital. BM4 students also spend a significant amount of time at the Royal Hampshire County Hospital in Winchester and North Hampshire Hospital in Basingstoke.

For more details about our courses visit:

www.southampton.ac.uk/medicine

BM4 BACHELOR OF MEDICINE, BACHELOR OF SURGERY

FOUR-YEAR GRADUATE ENTRY PROGRAMME

- Four-year programme
- Explicit links to clinical topics from year one
- Course content and teaching informed by world-leading researchers
- Clinical work from the outset, in a dedicated hospital clinical base
- Regular group work in the first two years
- Clinical assistantship in the final year

Course overview

Our BM4 degree programme enables graduates in any subject to achieve a BMBS degree in four years, drawing on existing knowledge, skills, understanding and life experiences.

The curriculum in the first 18 months is designed around a series of clinical topics which form the framework for your learning. You will undertake clinical placements, small group work, lectures and practical sessions which directly link to each of the clinical topics.

Full time clinical attachments start after Christmas in year two, when you will undertake placements in Medicine, Surgery and Primary Care, before joining the BM5 students for a common final two years for both programmes.

Course content

Learning outcomes considered within three levels of organisation (systems biology, individuals and population and society) are used to help structure your learning. Three themes (Communication, Diversity and Teamworking, Leadership and Patient Safety) underpin the whole of the curriculum and relate directly to medical practice.

The learning structured around clinical topics has some features in common with problem-based learning (PBL) courses. You will meet on a regular basis with other students in a Graduate Group. A substantial amount of work will take place in these groups.

The clinical sessions allow you to observe medical care related to the relevant clinical topic, and also to begin to develop your clinical skills.

Programme structure

Year one | Core modules

- Clinical Medicine 1
- Foundations of Medicine 1
- Integration of Knowledge 1

Year two | Core modules

- Clinical Medicine 2
- Foundations of Medicine 2
- Integration of Knowledge 2
- Medicine, Surgery and Primary Care

Year three | Core modules

- Acute Care
- Child Health
- Clinical Ethics & Law
- Obstetrics & Gynaecology/ Genitourinary Medicine
- Psychiatry
- Specialty Weeks (Dermatology, Head & Neck, Neurology & Ophthalmology)

Year four | Core modules

- Assessments*
- Assistantship
- Elective
- Medicine
- Personal Professional Development
- Primary Medical Care
- Student Selected Unit 4
- Surgery

All programme content is reviewed and updated annually as required.

*The main assessments take place in Jan/ Feb, with the Elective and Assistantship in the following months.

“Southampton has a unique graduate entry course with early patient contact. You acquire clinical skills early on and have the opportunity to develop these throughout the degree. Medicine is an intellectually challenging course and one where you never stop learning. I could not imagine myself doing anything else.”

Keval Shah
BM4 student

Key information

Course number: A101

Programme Leader:

Dr Ben Chadwick

Start date: September

Duration: 4 years

Fees: The University will set fees for 2019/20 subject to any conditions imposed by government. Currently the tuition fee is £9,250.

Typical offers require the following

Degree: An upper second-class honours degree or above in any subject

A levels: Either chemistry at grade C at A level or chemistry and biology at grade C at AS level

GCSE: GCSE English language and either maths, biology and chemistry, or maths, additional science and science at grade C/4

Intake: 48

Selection process: UCAS application; UKCAT; selection day; satisfactory health screening required

Please see further entry requirements for this programme on page 36/37.

Our typical entry requirements may be subject to change.

Before you apply, please visit www.southampton.ac.uk/entryreq

Note on eligibility criteria: International applicants are not eligible to apply for this programme.

BM5 BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC FIVE-YEAR PROGRAMME

- Integrated, systems-based method of teaching
- Clinical work from the first few weeks of the programme
- Opportunity to work with other health professionals
- Course content and teaching informed by world-leading researchers
- An in-depth research project
- Clinical assistantship

5 Year

Programme

Clinical work in first few weeks

Teaching informed by world-leading researchers

Course overview

Our integrated, systems-based BM5 and BMedSc programme is distinctive in many ways. You will learn from contact with patients in a variety of clinical settings, beginning in the first few weeks of your course; and in year two you will undertake weekend shift placements as a Healthcare Support Worker to gain insight into multi-professional teams working in hospitals.

We provide many opportunities for medical students to work and learn alongside other health professional students during their clinical placements.

Course content

In the first two years you will learn about the major physiological systems of the body, and integrate your learning in a clinical context. You will also undertake student selected units.

In year three you will carry out an in-depth research study, choosing a research topic from a wide variety of disciplines, followed by clinical placements in hospitals and general practice. On successful completion of this year you will be awarded a Bachelor of Medical Sciences (BMedSc) award.

In year four you will undertake placements in a range of clinical specialities and, in your final year, gain experience in a wide range of hospitals and in community and general practice placements, with an opportunity to complete an elective attachment at home or abroad.

Programme structure

Year one | Core modules

- Foundations of Medicine
- Medicine in Practice 1
- Nervous & Locomotor 1
- Respiratory, Cardiovascular & Renal 1
- Student Selected Units 1 and 2

Year two | Core modules

- Endocrinology & The Life Cycle
- Gastrointestinal
- Medicine in Practice 2
- Nervous & Locomotor 2
- Research for Medicine & Health
- Respiratory, Cardiovascular & Renal 2

Year three | Core modules

- Medicine & Elderly Care
- Primary Medical Care & Long Term Conditions
- Research Project
- Student Selected Unit 3
- Surgery & Orthopaedics
- Integration and Assessment

Year four | Core modules

- Acute Care
- Child Health
- Clinical Ethics & Law
- Obstetrics & Gynaecology/ Genitourinary Medicine
- Psychiatry
- Specialty Weeks (Dermatology, Head & Neck, Neurology & Ophthalmology)

Year five | Core modules

- Assessments*
- Assistantship
- Elective
- Medicine
- Personal Professional Development
- Primary Medical Care
- Student Selected Unit 4
- Surgery

All programme content is reviewed and updated annually as required.

*The main assessments take place in Jan/ Feb, with the Elective and Assistantship in the following months.

“The first thing I found amazing about the course at Southampton was that we were introduced to clinical attachments from the first week. University Hospital Southampton provides a great teaching environment, and the campus and halls were just what I was looking for. I’m having a great time at Southampton and really feel at home here.”

Sid Mohan
BM5 student

Key information

Course number: A100

Programme Leader:

Dr Jane Wilkinson

Start date: September

Duration: 5 years

Fees: The University will set fees for 2019/20 subject to any conditions imposed by government. Currently the tuition fee is £9,250.

Typical offers require the following

A levels: AAA, including chemistry and biology. A levels in general studies and critical thinking not acceptable and subjects with overlap, such as human biology/sports studies not considered in combination

GCSE: Six GCSEs at grade A/7 or above, including either maths, biology and chemistry, or maths, additional science and science. English language is required at a minimum of grade B/6

IB: 36 points, 18 at higher level in three subjects, to include 6 in chemistry and biology at higher level

Intake: 213

Language requirements: IELTS 7.0, with minimum of 7.0 in each component, or an equivalent standard in other qualifications approved by the University

Selection process: UCAS application; UKCAT; selection day; satisfactory health screening required

Please see further entry requirements for this programme on page 36/37.

Our typical entry requirements may be subject to change.

BM6 BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC SIX-YEAR WIDENING ACCESS PROGRAMME WITH YEAR ZERO

- Guaranteed progression to Year 1 studying alongside BM5 and BM(EU) students (conditional on satisfactory completion of year zero)
- Placements in a variety of healthcare settings start in week two and continue fortnightly throughout the academic year
- Full-time programme mainly timetabled over three days a week
- A small group setting, with 32 students
- Extensive tutorial and pastoral support
- All academic content relevant to the curriculum in Years 1-5

Course
established
2002

437
BM6 students
to date

BM6 is the 2nd
longest running
Widening
Access
programme
in the UK

Course overview

We have developed our BM6 programme to widen access into the medical profession. The programme has achieved national recognition as an example of best practice. It involves studying for an extra year on a specially designed year zero before progressing to Year 1 to study alongside students on the BM5 and BM(EU) programmes.

You will receive extensive tutorial and pastoral support. The relatively small cohort size enables frequent opportunities for small group work and regular support and feedback on progress.

The timetabling of year zero, mainly over three days a week, allows students an opportunity to carry out some part-time work in order to support their studies.

Course content

During year zero you will study two modules in Human Structure and Function and two modules in Professional Practice.

Professional Practice is based around six projects which reflect the themes of the undergraduate programmes and involve healthcare placements, sociology and psychology applied to health and professional development.

You will go out on observational placements every other week usually as part of a pair or a small group. Your placements will take place in both primary and secondary care settings around the Southampton area.

Financial support

Students on the BM6 programme are eligible for a year zero bursary of £1,000 for their first year of study. You may also be eligible for other University of Southampton bursaries.

Please visit
www.southampton.ac.uk/scholarships for further details.

Eligibility criteria

You must satisfy three of the criteria listed below in order to be eligible for the BM6 programme, and you will be expected to provide documentary proof.

- First generation applicant to higher education
- Parents, guardian or self in receipt of a means-tested benefit
- Young people looked after by a Local Authority
- In receipt of a 16-19 bursary of similar grant
- In receipt of free school meals at any point in Years 10-13
- Living in an area with a postcode which falls within the lowest 20 per cent of the Index of Multiple Deprivation (authenticated by the University), or a member of a travelling family

Note on Eligibility Criteria:

If you have chosen the free school meals criteria and the 16-19 bursary criteria, the 16-19 bursary must be awarded for something other than free school meals, eg transport costs between home and college, text books/stationery/printing.

Graduates, international applicants, and students who have previously enrolled on a higher education programme, are not eligible to apply for this programme. If you apply to the BM6 programme you will need to complete an eligibility form.

For more information about our eligibility criteria, please visit our website www.southampton.ac.uk/medicine/ug/BM6/eligibility

Further course information overleaf

“The course really eases you into university-style learning and you’ll always have people around you to help with any problems you may have adjusting to university life. The teaching is fantastic! It’s always interactive so you never get bored and you are always encouraged to aim for nothing less than your best.”

Jessica Tinsley
BM6 student

Key information

BM(EU) BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC FIVE-YEAR PROGRAMME

- Innovative European Programme
- Southampton University curriculum delivered across two countries (England and Germany)
- Experience two healthcare systems
- Study in two languages
- Guaranteed year 1 Foundation Post in Klinikum Kassel

1st
Cohort of BM(EU) students graduate in
2018

Klinikum Kassel is the largest maximum care hospital in the state of Hesse

1617
beds

BM(EU) takes

25-30
students a year

Course overview

The programme follows the same curriculum as described for BM5, with all the same fantastic features, but is delivered across two countries.

Students spend the first two years in Southampton alongside the other BMBS students, then move to Kassel Germany in years 3, 4 and 5 for the research project and the remaining clinical modules.

Students are hosted by the Kassel School of Medicine but remain University of Southampton students throughout the programme. On successful completion of the programme students graduate in Southampton with the BMBS degree, a UK, GMC approved primary medical qualification and a BMedSc.

Course content

For a detailed description of course content please see the BM5 pages 26 and 27. The modules delivered in Kassel in years 3-5 allow students to gain excellent clinical experience as well as the opportunity to compare and contrast two successful health systems.

The BM(EU) is a small programme of fewer than 30 students a year, therefore students on placement in Kassel get personalised support and access to a wide range of patients and clinical teachers.

Programme structure

Year one | Core modules

- Foundations of Medicine
- Medicine in Practice 1
- Nervous & Locomotor 1
- Respiratory, Cardiovascular & Renal 1
- Student Selected Units 1 and 2

- Student Selected Unit
- Surgery

All programme content is reviewed and updated annually as required.

*The main assessments take place in Jan/ Feb, with the Elective and Assistantship in the following months.

“Studying medicine on the BM(EU) programme was a fantastic choice. From an early stage in my medical education I have been introduced to two different health systems. This has taught me to critically reflect on current medical practices and question what the best treatment for my future patient is. The teaching in both Southampton and Kassel is excellent and very supportive.”

Anne Meierkord
BM(EU) student

Key information

Programme Leader:

Dr Clare Polack

Start date: 10th & 11th September induction Kassel, 24th September in Southampton

Duration: 5 years

Fees: 2019/20 - fees 13,000 Euros/year (Please note this programme is not eligible for funding from Student Finance England)

Eligibility: Open to Home (UK) or EU/ EEA residents as defined by UKCISA

https://www.ukcisa.org.uk

Typical offers require the following

A levels: AAA, including chemistry and biology.

Abitur: 1.6 or lower with biology or chemistry as a main subject.

IB: 36 points, 18 at higher level in three subjects, to include 6 in chemistry and biology at higher level.

Intake: 24 - 30.

Graduates will be considered with a 2.1 or equivalent. Other Equivalent qualifications may be considered.

Language requirements:

Please refer to the website: **www.medizin-kassel.de** for full details of English and German language requirements.

Selection process: Separate application process in May/June through Kassel School of Medicine; selection day; satisfactory health screening required.

Please see further entry requirements for this programme on page 36/37 and www.medizin-kassel.de. Our typical entry requirements may be subject to change.

Before you apply, please visit **www.southampton.ac.uk/entryreq**

For more details about your course such as module information and course structure, visit

www.medizin-kassel.de

Or to have specific questions answered:

T: 0561 980-3510

E: ksm@klinikum-kassel.de

OUTCOME OF THE COURSE

At the end of the undergraduate programme you will receive your BMBS degree, which is a primary medical qualification (PMQ). Holding a PMQ entitles you to provisional registration with the General Medical Council, subject only to its acceptance that there are no Fitness to Practise concerns that need consideration. Provisional registration is time limited to a maximum of three years and 30 days (1125 days in total). After this time period your provisional registration will normally expire.

Provisionally registered doctors can only practise in approved Foundation Year 1 posts: the law does not allow provisionally registered doctors to undertake any other type of work. To obtain a Foundation Year 1 post you will need to apply during the final year of your undergraduate course through the UK Foundation Programme Office selection scheme which allocates these posts to graduates on a competitive basis. All suitably qualified UK graduates have found a place on the Foundation Year 1 programme to date, but this cannot be guaranteed, for instance if there were to be an increased number of competitive applications. Successful completion of the Foundation Year 1 programme is normally achieved within 12 months and is marked by the

award of a Certificate of Experience. You will then be eligible to apply for full registration with the General Medical Council. You need full registration with a licence to practise for unsupervised medical practice in the NHS or private practice in the UK. Although this information is currently correct, students need to be aware that regulations in this area may change from time to time.

The General Medical Council, the body that oversees doctor education and training in the UK, has decided to introduce a Medical Licensing Assessment – the MLA – from 2022 to demonstrate that those who obtain registration with a licence to practise medicine in the UK meet a common threshold for safe practice.

Applicants should be aware that to obtain registration with a licence to practise, medical students will need to pass both parts of the MLA, pass university final examinations and demonstrate their fitness to practise as doctors.

The MLA will be in two parts: there will be a knowledge test, which will be set and run by the GMC, and an assessment, delivered by medical schools, that will evaluate students' clinical and professional skills.

Find out more:
www.gmc-uk.org

ENTRY REQUIREMENTS

Please read the selection process section on our How to Apply webpage: www.southampton.ac.uk/medicine/undergraduate/apply.page in conjunction with the information below.

Academic entry requirements

Qualifications which the University considers to be an equivalent standard may be accepted. Please contact the Medicine Admissions Office for further information or see our website.

BM5 A100 BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC FIVE-YEAR PROGRAMME

A levels: AAA, including Chemistry and Biology with a pass in the practical where the practical element is separately endorsed. General studies and critical thinking are not accepted. Subjects with material that overlaps (e.g. Human Biology/Sports Studies/Physical Education) may not be offered in combination at A level.

GCSEs: Six GCSEs at grade A/7 or above, including either maths, biology and chemistry, or maths, additional science and science. English language is required at a minimum of grade B/6.

Mature non-graduate applicants

(Non-graduate applicants over the age of 21)

A levels: AAA, including Chemistry and Biology with a pass in the practical where the practical element is separately endorsed.

GCSEs: A minimum of grade C/4 in Mathematics, English Language and either biology and chemistry, or additional science and science.

Graduate applicants

Degree: An upper second-class honours degree or above in any subject. For further information about your first degree see the entry requirements for our BM4 programme.

A levels: Chemistry at grade C or above with a pass in the practical where the practical element is separately endorsed. Alternatively, AS level Chemistry and Biology/Human Biology at grade C or above where Chemistry has not been taken to A level.

GCSEs: A minimum grade C/4 in Mathematics, English Language and either biology and chemistry, or additional science and science.

BM4 A101 BACHELOR OF MEDICINE, BACHELOR OF SURGERY FOUR-YEAR GRADUATE ENTRY PROGRAMME

Graduate applicants may also apply for the BM5 programme.

Degree: An upper second-class honours degree or above in any subject. For further information about your first degree see the entry requirements for our BM4 programme.

A levels: Chemistry at grade C or above with a pass in the practical where the practical element is separately endorsed. Alternatively, AS level Chemistry and Biology/Human Biology at grade C or above where Chemistry has not been taken to A level.

GCSEs: A minimum grade C/4 in Mathematics, English Language and either biology and chemistry, or additional science and science.

Information about your first degree

We expect graduate students to have developed effective study and academic skills which will enable you to complete an accelerated medical programme. This includes the ability to think critically.

Every graduate, whether with an arts or science degree, brings a unique set of knowledge, skills and understanding to the programme. For example, graduates with science, arts and humanities degrees will share their knowledge and understanding in the discussion of an individual patient's experience of illness from a range of different but equally valuable perspectives.

All graduates for the BM4 and BM5 programmes are selected on the basis that they will have sufficient science knowledge and understanding to cope with their studies, and the science requirements are identical.

Note on eligibility criteria: International applicants are not eligible to apply for this programme.

BM6 A102 BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC SIX-YEAR WIDENING ACCESS PROGRAMME WITH YEAR ZERO

Please note: you must fulfil all the entry requirements detailed below and the eligibility criteria on pages 28 and 29 in order to be eligible for the programme. Applicants may also apply for the BM5 programme.

A levels: A level grades BBB including Chemistry and Biology with a pass in the practical where the practical element is separately endorsed. Subjects with material that overlaps (e.g. Human Biology/Sports Studies/Physical Education) may not be offered in combination at A level. General studies and critical thinking are not accepted.

GCSEs: Five GCSEs at grade C/4, including English language, and either maths, biology and chemistry, or maths, additional science and science.

Note on eligibility criteria: International applicants are not eligible to apply for this programme.

BM(EU) BACHELOR OF MEDICINE, BACHELOR OF SURGERY AND BMEDSC FIVE-YEAR PROGRAMME

The BM(EU), is a European programme run in partnership with a healthcare provider in Germany. Applications for this course cannot be made via UCAS. For further information and an application form go to www.ksm-info.de

Other entry requirements

UK Clinical Aptitude Test (UKCAT)

The UKCAT focuses on exploring your cognitive powers, as well as other attributes considered valuable for healthcare professionals.

All applicants to our programmes are required to take the UKCAT in the summer prior to making an application.

The UKCAT results are only valid for applications to universities in the year in which the test is taken. If your application to medical school is not successful and you re-apply the following year, you will be required to re-sit the UKCAT.

For further information regarding how the score is used, please visit

https://www.southampton.ac.uk/medicine/undergraduate/apply/UK_clinical_apptitude_test_%28UKCAT%29.page

Non-academic entry requirements

In addition to academic entry requirements, during the selection process you will be assessed against our non-academic criteria published on our website www.southampton.ac.uk/medicine

Applicants must be able to show they:

- Are self-motivated and resilient
- Have reflected on and learnt from life experiences (this may include, work experience, paid employment and personal experiences both in and outside health and social care settings)
- Can communicate effectively
- Are able to interact successfully with others
- Can demonstrate an understanding of the values of the NHS constitution

EU and international applicants

EU and international applicants are expected to fulfil the same academic and non-academic criteria as home applicants, and you can do so through a wide range of qualifications. Please note that international applicants are not eligible to apply for the BM4 or BM6 programmes.

APPLYING AND FUNDING

At Southampton we aim to attract the most talented students from all backgrounds, who enjoy challenging thinking and the excitement of research-led teaching.

How and when to apply

- Applications should be submitted via UCAS (www.ucas.com)
- Our institution code is S27 and our code name is SOTON
- The application window opens in early September
- The deadline for applications for medicine is 15 October
- UCAS will automatically forward your application to us and we will let you know when we have received it
- For more information, visit www.southampton.ac.uk/apply

Tuition fees and funding

The University will set fees for 2019/20 subject to any conditions imposed by government. Currently the tuition fee is £9,250*, but we offer a large number of generous fee waivers and bursaries for eligible students. For students from lower income families, these financial packages will be based on household income supplied to us by the Student Loans Company.

Visit our website for the latest information on tuition fees before you submit your UCAS form for entry in the 2019/20 academic year. Students who have applied for a deferred place in 2018/19 will be eligible for the 2019/20 tuition fees and support.

If you are a UK student you can apply for loans to help pay for both fees and maintenance. For more details, visit www.southampton.ac.uk/fees

Channel Islands/ Isle of Man student fees

Channel Islands and Isle of Man students will be charged the same tuition fee as UK and EU students.

For up-to-date information on tuition fees for Channel Islands/Isle of Man students, visit our website.

International student fees for 2019/20

Fees for international medical students on the BMBS programme are still to be determined at the time of publication. Prospective applicants can find the latest information at www.southampton.ac.uk/fees

Money matters

Students on the BM6 programme are eligible for a year zero bursary of £1,000 for their first year of study and may also be eligible for other University of Southampton bursaries.

For information on medical student finance, and to check eligibility criteria for NHS bursaries during medical training, please see <https://www.nhsbsa.nhs.uk/nhs-bursary-students>.

When planning your finances, it is important you consider other expenses that may be associated with your course.

Please visit our website for details of any additional costs www.southampton.ac.uk/medicine/undergraduate/fees_and_funding.page

* Annual increases, which are also subject to UK Parliament approval, will apply to institutions demonstrating high-quality teaching and are likely to be in line with inflation. The measure of inflation to be used is Retail Price Index (RPIX) (excluding mortgage interest payments). It is anticipated that increases will apply at the commencement of the second and subsequent years of the degree programme.

Find out more:
www.southampton.ac.uk/sb/fees

TRAVEL DETAILS

Southampton has excellent transport links with the rest of the UK and internationally, by road, rail, sea and air.

By road

Our Southampton and Winchester campuses are well connected to the national road network. The M3 links Southampton and Winchester directly to London. For Southampton campuses, exit the M3 at junction 14 and follow signs for Southampton (A33). Follow the A33 into Bassett Avenue and follow signs to University campuses.

For Winchester School of Art, exit the M3 at junction nine or 10 and follow signs to the campus.

The M27 is one of the major road links along the south coast of England and passes Southampton to the north. For the University, leave the M27 at junction five (Southampton Airport) and follow signs to University campuses.

Satellite navigation

When travelling by car, please use the following postcodes in satellite navigation devices:

For Southampton Highfield Campus, use **SO17 1BJ**

For Avenue Campus, use **SO17 1BF**

For Boldrewood Campus, use **SO16 7QF**

For the National Oceanography Centre Southampton, use **SO14 3ZH**

For Southampton General Hospital, use **SO16 6YD**

For Winchester School of Art, use **SO23 8DL**

By air

Southampton Airport is about 20 minutes from the Southampton campuses by bus or taxi. There is a full UK domestic service, including flights to Manchester, Newcastle and Belfast, as well as flights to mainland Europe and flights to the Channel Islands. If you are arriving in the UK via London Gatwick or London Heathrow airports, you can reach Southampton by road, bus, coach and rail.

By bus

We run the award-winning unilink bus service that connects our Southampton campuses with all the major transport links in the city. You can buy tickets at the unilink office or on the bus. A free unilink bus pass is included in your first-year hall fees.

Downloadable for iPhone, the SotonBus app allows you to view bus and route information from all major bus operators in the Southampton area. With GPS positioning, you can find your nearest bus stop, plan routes and save frequently used bus stops for easy access.

By coach

National Express runs the 032 service to London Victoria Coach Station and the 203 service to London Heathrow Airport, both via the Highfield Campus.

For timetable information, visit **www.nationalexpress.com**

By rail

Southampton and Winchester are well served by mainline railway stations – Southampton Central, Southampton Airport Parkway and Winchester. Fast trains from London and Bournemouth/Weymouth stop at all three stations, and the typical journey times to London Waterloo from Southampton Central and Winchester are an hour and 20 minutes and an hour respectively. Winchester School of Art is a 15-minute walk from Winchester train station. The unilink frequent bus service (U1) connects into the Southampton Airport Parkway and Southampton Central train services, via the University.

With up to seven buses an hour and major routes providing a bus every 10 minutes in peak times, unilink connects you with your accommodation, our campuses and major transport hubs in Southampton.

HOW TO FIND US

Southampton is a thriving, modern city, steeped in history and culture. Just over an hour south of London, Southampton has excellent transport links with the rest of the UK.

CAMPUS INFORMATION

- University buildings
- Halls of residence

TRANSPORT INFORMATION

- Airport
- Ferry terminal

TERMS AND CONDITIONS

The University's Charter, statutes, regulations and policies are set out in the University Calendar and can be accessed online at www.calendar.soton.ac.uk

Terms of use

This prospectus does not constitute an offer or invitation by the University of Southampton to study at Southampton. It provides an overview of the University and life at Southampton, along with information about all the undergraduate programmes available at the time of publication. This is provided for information purposes only. Applications made to the University should be made based on the latest programme information made available by the University. Relevant weblinks are shown throughout. Please also consult the programme information online for further details or for any changes that have appeared since first publication of the prospectus.

The information contained in the prospectus, welcome guides or on our websites is subject to change and may be updated by the University from time to time to reflect intellectual advances in the subject, changing requirements of professional bodies and changes in academic staff members' interests and expertise. Changes may also occur as a result of monitoring and review by the University, external agencies or regulators.

Programme Validation

Validation is the process by which the University approves its programmes of study. Any taught undergraduate and postgraduate programme leading to a University of Southampton award, including research degrees with a taught component (e.g. Engineering Doctorate) are required to go through Programme Validation. The full validation process can be found in the University's Quality Handbook: www.southampton.ac.uk/quality

1. Change or discontinuance of programmes

The University of Southampton will use all reasonable efforts to deliver advertised programmes and other services and facilities in accordance with the descriptions set out in the prospectuses, student handbooks, welcome guides and website. It will provide students with the tuition and learning support and other services and facilities so described with reasonable care and skill.

We undertake a continuous review of our programmes, services and facilities to ensure quality enhancement. We are largely funded through public and charitable means and are required to manage these funds in an efficient and cost-effective way for the benefit of the whole of the University community. We therefore, reserve the right where necessary to:

- alter the timetable, location, number of classes, content or method of delivery of programmes of study and/or examination processes, provided such alterations are reasonable;
- make reasonable variations to the content and syllabus of programmes of study (including in relation to placements);
- suspend or discontinue programmes of study (for example, because a key member of staff is unwell or leaves the University);
- make changes to our statutes, ordinances, regulations, policies and procedures which we reasonably consider necessary (for example, in the light of changes in the law or the requirements of the University's regulators). Such changes if significant will normally come into force at the beginning of the following academic year or, if fundamental to the programme, will normally come into force with effect from the next cohort of students;

- close programmes of study or to combine or merge them with others (for example, because too few students apply to join the programme for it to be viable).

However, any revision will be balanced against the requirement that students should receive the educational service expected. The University's procedures for dealing with programme changes and closures can be found in our Quality Handbook at www.southampton.ac.uk/quality

If the University closes, discontinues or combines a programme of study or otherwise changes a programme of study significantly (the 'Change'), the University will inform applicants (or students where relevant) affected by the Change at the earliest possible opportunity.

- If the Change comes into force **before** the University has made an **offer** of a place or before an applicant has accepted an offer of a place, an applicant will be entitled to withdraw his or her application, without any liability to the University, by informing the University in writing within a reasonable time of being notified of the Change.
- If the Change comes into force **after** an **offer** has been accepted but prior to the student **enrolling**, the student may either:
 - withdraw from the University and be given an appropriate refund of tuition fees and deposits, or
 - transfer to another available programme (if any) as may be offered by the University for which the student is qualified.

If in these circumstances the student wishes to withdraw from the University and to apply for a programme at a different university, the University shall use its reasonable endeavours to assist the student.

- If the Change comes into force **after** a student has **enrolled**, the University will use reasonable endeavours to teach the programme out but cannot guarantee to do so. If the University cannot teach out a programme of study, it will use its reasonable endeavours to facilitate the transfer of a student to an equivalent programme for which the student is qualified and which has places available within the University or at a different university. Any revision will be balanced against the requirement that students should receive the educational service expected.

2. Changes to services or facilities

The University will make available to students such learning support and other services and facilities as it considers appropriate, but may vary what it provides from time to time (for example, the University may consider it desirable to change the way it provides library or IT support).

3. Financial or other losses

The University will not be held liable for any direct or indirect financial or other losses or damage arising from such closures, discontinuations, changes to or mergers of any programme of study, service or facility.

Upon acceptance by an applicant of an offer of a place at the University, the relationship between the applicant and the University becomes contractual. When the contract is formed between the student and the University it will last for the relevant academic year only unless the student withdraws from the programme or the programme is terminated.

Please note: the right of a student to withdraw from a programme of study under the provisions set out in paragraph 1b. above following a Change are in addition to any statutory rights of cancellation that may exist under the Consumer Contracts (Information, Cancellation and Additional Charges) Regulations 2013. In entering into that contract, the terms of the contract will not be enforceable by any person not a party to that contract under the Contracts (Rights of Third Parties) Act 1999.

Force majeure

The University will not be held liable for any loss, damage or expense resulting from any delay, variation or failure in the provision of programmes of study, services or facilities arising from circumstances beyond the University's reasonable control, including (but not limited to) war or threat of war, riot, civil strife, terrorist activity, industrial dispute, natural or nuclear disaster, adverse weather conditions, interruption in power supplies or other services for any reason, fire, boycott and telecommunications failure. In the event that such circumstances beyond the reasonable control of the University arise, it will use all reasonable endeavours to minimise disruption as far as it is practical to do so provided that such endeavours do not undermine the University's Quality Assurance requirements.

Admissions Policy and complaints

The University will assess applications in line with its then current Admissions Policy. This policy is reviewed at least annually. The Admissions Policy, current at the time of publication, is published online and is available at www.calendar.soton.ac.uk/sectionIV/admissions.html. Before you apply please see subject websites listed for subject-specific terms and conditions.

Applications for Medicine are also subject to the Selection Procedure and Policy for the Faculty of Medicine, which is available on our website: www.southampton.ac.uk/medicine/undergraduate apply page.

In case of conflict, the Selection Procedure and Policy for the Faculty of Medicine will take precedence. Applicants may raise complaints related to admissions under the University's Regulations Governing Complaints from Applicants, which can be found at www.calendar.soton.ac.uk/sectionIV/admissions.html

Further information about or clarification of these procedures is available from the Admissions team, Student and Academic Administration, University of Southampton, Southampton SO17 1BJ; admissions@soton.ac.uk

Data protection

During the application procedure, the University will be provided with personal information relating to the applicant. An applicant's personal data will be held and processed by the University in accordance with the requirements of the Data Protection Act 1998.
