

STEPPING UP TO OUR TRAVEL CARBON FOOTPRINT

Hi Krishna

We are hosting a meeting in Edinburgh next Wednesday 10am - 2pm. I just wanted to check if you can join us?

Story 1:

Round trip to Edinburgh for 4 hour meeting

(Each bag of coal = 25kg CO₂e)

Hi Carl

Be delighted to attend. I'll see you next week.

Do you take the train?

Go plug-in hybrid?

Petrol driven?

Do you fly?

The majority of trips (and the greatest emissions) are due to **conferences** and **business meetings** with research and fieldwork only featuring more strongly during 2020/21.*

Or, do you have a video conference?

0.63kg
A very small lump of coal

And, if you turn off your video...

0.03kg
A speck of coal

STEPPING UP TO OUR TRAVEL CARBON FOOTPRINT

Hi Simon

Glad that you can join us for the conference in Malaysia next month. I look forward to seeing you again.

**Story 2: Round trip to UoS Malaysia (Singapore)
for 16 hours of meetings over 3 days**

(Each bag of coal = 25kg CO₂e,
flights and hotel only)

Do you fly? Economy?

Or, do you
have a video
conference?

2.52kg
About a small
lump of coal

1.10kg
A chip of coal

And, if you turn off
your video...

Premium Economy?

Make this poster half as big again,
then add another **86** sacks of coal.

Business Class?

Make this poster three times as big,
then add another **271.5** sacks of coal.

Pre COVID 19 about **95%** of our business
travel emissions were due to flights*
